Sir:

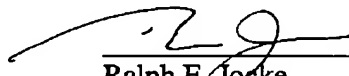

In response to the Notice of Allowability dated August 7, 2009 kindly enter Applicant's  
"Comments on the Statement of Reasons for Allowance" without prejudice as follows:

**Comments on the Statement of Reasons for Allowance**

Applicant acknowledges the Office's admission that the pending claims are patentable  
over the prior art, and that there is no teaching, suggestion, motivation, or valid reason for one of  
ordinary skill in the art to have produced the recited invention.

Applicant respectfully submits that while the specific features and relationships mentioned in the Statement of reasons for allowance are not disclosed or suggested in the prior art, these are not the only recited features and relationships which are not found or suggested in the prior art. Furthermore, the Statement sometimes indicates a general paraphrasing of claim language, and not necessarily the exact claim language. The Statement also refers to subject matter or language which is not recited (or required structure) in all of the claims. Thus, not all claims require the specific features, relationships, or language indicated in the Statement. It should be understood that the claims are to only be limited by that subject matter which is actually positively recited. Any remarks in the Statement which attempt to narrow the recited subject matter should be disregarded. Applicant respectfully also does not necessary agree with the features attributed to the mentioned references.

Respectfully submitted,
